

# Environmental facts

Company: Örebro/CDT AB

Product: Heating cable T2 Blue - 30

Produced by E.L. Electrical Material Suppliers' Association.

The material is based on NUTEK's project "Advice for Purchasers".

|------------|--|-----|----|----------------|-------------------------------|--------------|
| <b>1.</b>  | <b>Plastic parts in products</b>   |     |    |                |                               |              |
| 1.1        | Is there PVC in the cables and electrical wires? (1)   |     | X  |                |                               |              |
| 1.2        | Does any other part of the product contain PVC? (1)  |     | X  |                |                               |              |
| 1.3        | Do the plastic parts in the product contain flame retardants with organically bound chlorine or bromine? (2)   |     | X  |                |                               |              |
| 1.4        | Do the plastic parts in the product contain any of the following additives?  |     |    |                |                               |              |
|            | Lead (including compounds) (3, 4, 5)   |     | X  |                |                               |              |
|            | Phthalates (3, 4)  |     | X  |                |                               |              |
|            | Chlorinated paraffins (3, 4)   |     | X  |                |                               |              |
|            | Organic tin compounds (3)  |     | X  |                |                               |              |
| 1.5        | Are environmentally hazardous metal pigments used in the plastic? (3, 4, 5)  |     | X  |                |                               | X1           |
| 1.6        | Is the titanium dioxide used as a pigment in the plastic parts manufactured according to another method than that stated in the EU council's directive 92/112/EEG? (6) |     |    |                | X                             |              |
| <b>2.</b>  | <b>Electronics and solder</b>  |     |    |                |                               |              |
| 2.1        | Do the electronics and solder contain any of the following environmentally hazardous substances?   |     |    |                |                               |              |
|            | Arsenic (including compounds) (3, 4)   |     | X  |                |                               |              |
|            | Lead (including compounds) (3, 4, 5)   |     | X  |                |                               |              |
|            | Cadmium (including compounds) (3, 4, 5)  |     | X  |                |                               |              |
|            | PCB (Polychlorinated biphenyls) (4)  |     | X  |                |                               |              |
|            | PCT (Polychlorinated terphenyls) (4)   |     | X  |                |                               |              |
|            | Silver compounds (4)   |     | X  |                |                               |              |

| A. Product |                                   | Yes | No | No information | Not relevant for this product | See comments |
|------------|-----------------------------------|-----|----|----------------|-------------------------------|--------------|
| <b>3.</b>  | <b>Metal parts in the product</b> |     |    |                |                               |              |

|           |  |   |   |  |   |    |
|-----------|--|---|---|--|---|----|
| 3.1       | Do the metal parts in the product contain any of the following environmentally hazardous substances?         |   |   |  |   |    |
|           | Arsenic (including compounds) (3, 4)   |   | X |  |   |    |
|           | Lead (including compounds) (3, 4, 5)   |   | X |  |   |    |
|           | Cadmium (including compounds) (3, 4, 5)  |   | X |  |   |    |
| <b>4.</b> | <b>Other parts</b>   |   |   |  |   |    |
| 4.1       | Does the product contain parts made of glass with lead additives? (2)  |   |   |  | X |    |
| 4.2       | Does the product contain parts made of wood from tropical rain forests? (7)                                  |   |   |  | X |    |
| <b>5.</b> | <b>Paint/Varnish</b>   |   |   |  |   |    |
| 5.1       | Are there chemical products in the paint/varnish used which are classified as environmentally hazardous? (8) |   |   |  | X | X2 |
| 5.2       | Are there any environmentally hazardous metal pigments in the paint/varnish? (3,4,5)                         |   |   |  | X | X1 |
| <b>6.</b> | <b>Solvents in paint/varnish</b>   |   |   |  |   |    |
| 6.1       | Are solvent-based paints/varnishes used on any of the parts of the product?                                  | X |   |  |   |    |
| 6.2       | Is the level of VOCs (volatile organic compounds) in the paint/varnish used higher than 25% by weight? (8)   | X |   |  |   |    |
| 6.3       | Does the paint/varnish contain aromatic hydrocarbons? (5)  |   | X |  |   | X3 |
| 6.4       | Are water or environmentally acceptable solvents used in the paint/varnish? (9)                              |   | X |  |   | X4 |
| <b>7.</b> | <b>Other surface treatment of metal</b>  |   |   |  |   |    |
| 7.1       | State methods for surface treatment of metal parts (galvanising, chromium plating etc.)                      |   |   |  | X |    |

| A. Product |  | Yes   | No | No information | Not relevant for this product | See comments |
|------------|--|---|----|----------------|-------------------------------|--------------|
| <b>8.</b>  | <b>Packaging</b>   |   |    |                |                               |              |
| 8.1        | Does the packaging consist of any of the following acceptable materials (materials are listed in order where I is the best alternative)? |   |    |                |                               |              |
|            | I Unbleached paper/carton from recycled fibre.   |   | X  |                |                               |              |
|            | II Polyethylene or Polypropylene plastic from recycled material.   |   | X  |                |                               |              |
|            | III One of the materials from groups I or II is manufactured from new raw materials  |   | X  |                |                               |              |
| 8.1.1      | Packaging consists of the following pure (not composite) materials not included above:   | <b>polythene</b>  |    |                |                               |              |
| 8.1.2      | Packaging consists of the following composite materials:   | <b>Pressed wood, paper, glass fibre net &amp; PVAC-glue</b> |    |                |                               |              |
| 8.2        | Is all plastic material in the packaging marked according to standard specifications DIN 54 840 and/or ISO 11469 to simplify recycling?  |   | X  |                |                               |              |
| 8.3        | Is there PVC or other halogen-containing plastic in the packaging? (2)   |   | X  |                |                               |              |
| 8.4        | Is the company a member of the REPA register?  | X   |    |                |                               |              |

| B. Manufacturing |  | Yes, used in production | No, not used in production | No information | Not relevant | See comments |
|------------------|--|-------------------------|----------------------------|----------------|--------------|--------------|
| <b>9.</b>        | <b>Solvents</b>  |                         |                            |                |              |              |
| 9.1              | Are aromatic hydrocarbons used in solvents in the production of the product or packaging? (5)                  |                         | X                          |                |              | X3           |
| 9.2              | Are any of the following chlorofluorocarbons/fluorocarbons used in the production of the product or packaging? |                         | X                          |                |              |              |
|                  | CFC (10)   |                         | X                          |                |              |              |
|                  | HCFC (10)  |                         | X                          |                |              |              |
| 9.3              | Are chlorinated solvents used in the production of the product or packaging?                                   |                         | X                          |                |              | X5           |

Comments:

#### X1

##### Pigments

The following are classified as environmentally hazardous pigments:

Arsenic (including compounds) (3,4)  
 Lead (including compounds) (3,4,5)  
 Cyanides (including compounds) (5)  
 Cadmium (including compounds) (3,4,5)  
 Copper (including compounds) (4)  
 Chromium (including compounds) (4)  
 Mercury (including compounds) (3,4,5)  
 Nickel (including compounds) (5)

#### X2

The following are classified as environmentally hazardous chemical products:

Pure substances marked with any of the following risk categories:

R52, R53, R54, R55, R56, R57, R58, R59.

Preparations containing pure substances marked with any of the following risk categories at levels greater than 2% by weight:

R52, R53, R54, R55, R56, R57, R58, R59.

#### X3

Aromatic hydrocarbons:

Benzene (5)  
 Toluene (methylbenzene) (5)  
 Xylene (dimethylbenzene) (5)

#### X4

The following solvents are classified as environmentally acceptable (according to ref 9):

Water  
 Ethanol (not denatured with phthalates)  
 i-Propanol  
 Propylene glycol  
 n-Paraffins  
 Glycerol (= alcohols with more than four C atoms)  
 Acetone  
 Isopropylaurate  
 Isopropylpalmitate  
 Isopropylmyristate  
 Methylpyrrolidone  
 Gamma-Butyrolactone  
 Ethyl acetate

#### X5

Chlorinated solvents:  
 Hexachlorobutadiene  
 Methylene chloride  
 Tetrachloromethane  
 1,2,4-Trichlorobenzene  
 1,1,1-Trichloroethane  
 Trichlorethylene  
 Trichloromethane
