

ENG Product description Xpress

Properties

Xpress is a wireless user interface, which creates great flexibility in interior design, as furniture can be replaced and even walls can be moved, without having to think about how the switches are connected or where they are located. Xpress switch can be stored wherever the user needs it and provides direct access to all Casambi light control functions.

Mounting

Xpress is equipped with magnets for easy attachment to the mounting plate. The mounting plate is included.
