

		ECODECLARATION			
Cable Type		Fire resistant cables			
Supplier		PIRELLI			
Environmental Management System		ISO 14001			
Declares that the Product conforms to the Environmental Specifications, as listed in the ecodeclaration below					
Product Name		PIRESAFE FRHF 500 and 750 V			
Specification		SFS 5545 and 2091			
Reference			2x1,5	5G6	
Weights and Dimensions (approx values)	Total Weight		kg/m	0,150	0,560
	Metal Weight	Cu	kg/m	0,027	0,266
		Outer Diameter		mm	10,0
Energy Losses at			W/m	3	17
Operating voltage		V	500 V	750 V	
Spec max current		A	10 A	42 A	
Other Components			XLPE insulation		
			Halogen free sheath		
Materials			This product contains no prohibited hazardous materials affecting health or the environment		
Electromagnetic Compatibility			Not Applicable		
Chemical Emissions			During normal operation, there are no significant chemical emissions hazardous to health or the environment		
Other Environmental Aspects			In case of fire, the principally formed substances are soot, carbon oxides and water		
Reuse			It is not recommended that cables are re-used after dismantling or at the end of life due to safety or performance implications		
End of Life			Metal components of this product are totally recoverable. All the other materials used in this product may be recycled by mechanical or chemical processes or incinerated for energy recovery		
Packing		Type		Returnable drum	
		Composition		Non treated wood	
		Regulation
